This market is a bit of a compromise to the match result or each-way market, and as such the odds will be shorter meaning that the payout won't be as big. Again the big benefit of this market is that you'll be able to claim some cash even if your chosen player doesn't win. Similar to the each-way bet commonly found in horse racing markets, here you're placing two stakes on a particular player to finish either first or place.

In order to mitigate this issue and remove any advantage punters at the event may have, bookies will impose a short delay on the bets placed on the live market. This is something to be wary of in case you suddenly see significant fluctuations in price. This is good for punters who may have missed the start of a game or who weren't taken by the pre-match odds. Accumulator bonuses give customers the ability to add to their larger potential payouts by rewarding them with cash prizes or free bets for correct selections. In order to claim and use the free bet however, some bookies will require you to use your first bet and free bet on odds of a minimum value. Free bets can be claimed as standalone bonuses, or they can come rolled into larger promotions like matched deposits.

The 1st and 2nd columns indicate biggest betting odds available, while the last column shows mathematical profit that you can take advantage of. Blocked events are those events that were closed by the majority of the bookmakers.
