

# The Rise of Mobile Gaming in the Casino Industry

## Description

Mobile gaming has revolutionized the casino scene, enabling players to appreciate their preferred games anytime and anywhere. According to a 2023 analysis by Newzoo, mobile gaming revenue is projected to surpass \$100 billion, comprising for almost 50% of the global gaming sector. This change has motivated casinos to improve their systems for mobile platforms, boosting user experience and usability.

One notable figure in this development is Richard Branson, the creator of Virgin Group, who has allocated in various gaming initiatives, comprising mobile interfaces. You can track his insights on his [Twitter profile](#). His foresight has promoted creativity in mobile gaming, making it more captivating and accessible.

In 2022, BetMGM unveiled a mobile app that incorporates live dealer titles, allowing players to feel the excitement of a casino from their smartphones. This innovation not only broadens the viewership but also ensures adherence with local regulations, as mobile gaming becomes increasingly popular across diverse states.
